DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has cancelled claims 1-7. Applicant has added new claims 12 and 13 which include the subject matter indicated allowable in the previous office action. Specifically, the independent claims require a first and second rotating disc, wherein the first rotating disc has an inspection station for inspecting the first side of the object and a rejection station for rejecting an object if the first side is not in conformity with preselected standards and further wherein the second rotating disc has an inspection device for inspecting the second side of the object and a rejection station for rejecting an object if the second side is not in conformity with preselected standards. The prior art does not disclose or suggest the two separate rejection assemblies wherein one corresponds to a first side inspection on a first rotatable disc and the second rejection assembly corresponds to a second side inspection on a second rotatable disc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 8-13 are allowed.
